Kebony Character

Kebony Character "Melsomslat" 61 x 48 mm

Product description
Kebony Character products are produced from FSC® certified Scots Pine modified with a bio-based liquid.

The patented Kebony technology permanently alters the wood cell structure to give a unique wood product with outstanding durability and no maintenance needs beyond normal cleaning.

Kebony Character products contain knots and untreated heartwood. The amount of heartwood will vary from board to board.

* Due to the Kebony process the dimension of the profile can vary +/-3%

technical data (average values)

- **Kebony**: Density (12 % mc) 570 Kg/m³, Hardness (EN 1534) 2-3 Brinell, Max swelling (dry to wet, tangential direction) 6 %, Use class (EN 335) 1-2***.
- **Untreated**: Density (12 % mc) 490 Kg/m³, Hardness (EN 1534) 2 Brinell, Max swelling (dry to wet, tangential direction) 8 %, Decay resistance (EN 350) 5 Durability class 1-5, Use class (EN 335) 1**.

* Suitable for outdoor applications above ground
** Not suitable for outdoor applications
*** Sapwood (Heartwood of scots pine has dur. class 3)

Documents / Certificates / Compliance

- Kebony installation guide for cladding - www.kebony.com
- CE marked according to EN 14915
- Norwegian technical approval TG 2493 - www.sintefcertification.no
- FSC CU-COC-813689 - www.fsc.org
- Nordic Ecolabel 2086 0001 - www.nordic-ecolabel.org
- Complies with EU Timber Regulation (EUTR)

Environment

Kebony products are exempted from the EU's biocide directive (76/769/EEC).
Waste handling as ordinary wood.

Disclaimer

Up to 5% of the delivered boards may be outside this specification and must be accepted.

Kebony products will change in appearance when exposed to rain and sun. Colour changes and surface cracks will occur due to natural weathering. The manufacturer cannot be held liable for any such variations in colour and surface appearance. This will not influence durability and overall performance of the product.

Kebony Character products should not be further machined or split as untreated heartwood will be exposed. Kebony Character products can be cross-cut to length. Exposed end grain after cross-cutting must be treated with a wood preservative.

Kebony is continuously working on product development. Information in this datasheet may be changed without further notice.
